Degrees

- 2011/8 Doctorate, Computing Science, University of Alberta
- 2006/7 Master's Thesis, Computer Science, Indian Statistical Institute
- 2004/7 Master's Thesis, Quality, Reliability and Operations Research, Indian Statistical Institute
- 2002/7 Bachelor's, Mechanical Engineering, Jadavpur University

User Profile

Research Specialization Keywords: Computer Vision, Machine Learning, Artificial Intelligence, Robotics, Industria 4.0, Big Data, Deep Learning, Mechatronics, Internet of Things (IoT), Operations Research, Mechanical Design, Flexible Manufacturing System

Employment

- 2022/7 Associate Professor
Mathematics and Information Technology, Science, Concordia University of Edmonton
Full-time, Associate Professor
Tenure Status: Tenure
Responsibilities included: (i) Teaching MScIT and BScIT students; (ii) Supervising research thesis projects for IT students; (iii) Serving as a member of the MISAM faculty hiring committee; and (iv) Acting as the Principal Investigator for the NSERC Discovery Grant.

- 2021/7 - 2024/6
Chair of Mathematical and Physical Sciences
Physical and Mathematical Sciences, Science, Concordia University of Edmonton
Full-time
Tenure Status: Tenure Track
Responsibilities included: (i) Chair of the Mathematical and Physical Sciences; (ii) Program Director and Representative for the MSc-IT graduate program in the University Graduate Studies Council; (iii) Coordinator of the Information Technology program; (iv) Science Representative in the General Faculties Council (GFC); (v) Co-Director (Academic) of the Interdisciplinary Research Cluster on Machine Learning & Artificial Intelligence (IRCMLAI); and (vi) Alternate Member of the Research and Faculty Member Committee.
- 2019/7 - 2022/6
Assistant Professor
Mathematics and Computing Sciences, Concordia University of Edmonton
Full-time, Assistant Professor
Tenure Status: Tenure Track
Responsibilities included: (vi) Serving as one of Concordia's representatives for launching dual credit IT courses (IT 101 and IT 110) in collaboration with the Edmonton Catholic School District (ECSD); (vii) Acting as an expert reviewer for CUE's Program to Assist Grant Endeavours (PAGE); (viii) Conducting independent research, advising students, and writing research grants; (ix) Teaching both undergraduate and graduate courses; (x) Serving on the program committee for the development of the Master of Science in Information Technology; (xi) Developing the undergraduate minor program in Machine Learning; (xii) Promoting AI and ML-based industrial research through CIAR; (xiii) Participating as a member of the Faculty Hiring Committee (Math and Information Technology); and (xiv) Representing IT in the MISAM/MISSM working recruitment group to enhance diversity, domestic student enrollment, and industry collaboration.
- 2014/10 - 2019/6
Researcher
Computer Science, Centro de Investigacion en Matematicas
Full-time, Assistant Professor
Tenure Status: Tenure Track
Responsibilities included: (i) Conducting independent research, advising students, and writing research grants; (ii) Teaching both undergraduate and graduate courses; (iii) Designing courses, syllabi, and examinations for the Master's program in Computational Statistics as a committee member; (iv) Administrative and other duties, such as: (a) Serving as a committee member for graduate student recruitment; (b) Participating as an examining committee member for MS and PhD programs, having contributed to approximately 10 examinations to date.
- 2014/8 - 2013/7
Postdoctoral Researcher
Radiation Oncology Physics, The University of Calgary
Full-time
Tenure Status: Non Tenure Track
Research on classifying breast cancer tumor histology using morphometric context analysis.
- 2011/11 - 2013/6
Postdoctoral Research Associate
Translational Science, Wake Forest University
Full-time
Tenure Status: Non Tenure Track
Conducted research on: (i) segmentation of white matter lesions from brain MRI in patients with diabetes; (ii) three-way classification of Alzheimer's Disease, Mild Cognitive Impairment, and Cognitively Normal subjects from brain MRI for Alzheimer's Disease detection; and (iii) prediction of brain age using pediatric brain MRI.

Research Funding History

Awarded [n=2]

2025/3 - 2026/3 Principal Investigator	New User Enrollment System, Grant Funding Sources: Mathematics of Information Technology and Complex Systems (MITACS) Business Strategy Internship (BSI) Total Funding - 45,000 Portion of Funding Received - 100 Funding Competitive?: Yes
2020/4 - 2025/3 Principal Investigator	A unifying framework for integrating domain knowledge into machine learning algorithms for multidisciplinary industrial applications, Grant Funding Sources: Natural Sciences and Engineering Research Council of Canada (NSERC) Discovery Launch Supplement Total Funding - 12,500 Portion of Funding Received - 100 Funding Competitive?: Yes Natural Sciences and Engineering Research Council of Canada (NSERC) Discovery Grant Total Funding - 120,000 Portion of Funding Received - 100 Funding Competitive?: Yes

Completed [n=6]

2022/5 - 2023/4 Principal Investigator	Secure privacy-preserving distributed machine learning algorithms for big data applications, Grant Funding Sources: Concordia University of Edmonton Research Seed Grant Total Funding - 4,988 Portion of Funding Received - 100 Funding Competitive?: Yes
2021/2 - 2022/1 Principal Investigator	Developing a novel Artificial Intelligence powered socially-aware recommender system for massive Online social network to filter the firehose of falsehood and propagation of misinformation, Grant Funding Sources: Concordia University of Edmonton Research Seed Grant Total Funding - 4,400 Portion of Funding Received - 100 Funding Competitive?: Yes
2020/5 - 2021/5 Principal Investigator	Machine Learning based Rapid Self-Assessment and Understanding of COVID-19 Disease Progression to Support Public Policy Decisions, Grant Funding Sources: Concordia University of Edmonton Special Call for Research Projects COVID-19 (SCRIP COVID-19) Total Funding - 2,350 Portion of Funding Received - 100

	Funding Competitive?: Yes
2019/9 - 2020/10 Principal Investigator	Graphics Processing Unit (GPU) based acceleration for real time big data stream processing, Grant
	Funding Sources: Nvidia Accelerated Data Science Call for Proposals Total Funding - 10,000 Portion of Funding Received - 100 Funding Competitive?: Yes
2019/10 - 2020/9 Principal Investigator	Developing Efficient GPU based Differential End-to-End Deep Learning Architecture for Big Data Applications, Grant
	Funding Sources: Concordia University of Edmonton Research Seed Grant Total Funding - 5,000 Portion of Funding Received - 100 Funding Competitive?: Yes
2016/8 - 2019/7 Principal Investigator	Potential Association between image based phenotypes and genomic biomarkers for making therapeutic and prognostic decisions of cancer, Grant
	Funding Sources: Consejo Nacional de Ciencia y Tecnologia (CONACYT) (Mexico) Carpeta Convocatoria de Investigación Científica Básica (Basic Science Research Project Call) Total Funding - 600,000 Portion of Funding Received - 100 Funding Competitive?: Yes

Student/Postdoctoral Supervision

Bachelor's [n=27]

2024/9 - 2024/12 Principal Supervisor	Uloma Udeh (Completed) , Concordia University of Edmonton Thesis/Project Title: SymptoSync: An AI-Powered Platform for Managing PCOS and Women's Health Present Position: Founder, Symptosync
2024/1 - 2024/4 Principal Supervisor	D S Maburur Hyder (Completed) , Concordia University of Edmonton Thesis/Project Title: BotanicalID: Plant Identification and Optimal Growth Condition Analysis Tool Present Position: Technical Support Representative, Rogers Communications
2024/1 - 2024/4 Principal Supervisor	Sanjot Singh (Completed) , Concordia University of Edmonton Thesis/Project Title: Fruit Detection and Nutritional Analysis Using Google Cloud Vision API and Machine Learning Present Position: Cashier, A&W Food Services of Canada Inc.
2024/1 - 2024/4 Principal Supervisor	Vanessa Okyere (Completed) , Concordia University of Edmonton Thesis/Project Title: Developing an E-Commerce Platform for School Merchandise: A Data-Driven Approach Using HTML, CSS, and JavaScript Present Position: Cashier, Walmart

2024/1 - 2024/4 Principal Supervisor	Kosi Anadozie (Completed) , Concordia University of Edmonton Thesis/Project Title: Enhancing University Student Well-Being Through Digital Counseling Services and Mental Health Awareness Initiatives Present Position: Software Engineer
2023/5 - 2024/12 Principal Supervisor	Gbenro Ketiku (Completed) , Concordia University of Edmonton Thesis/Project Title: Developing Intelligent Sports Prediction Analysis System (USRA, 2023) Refining the Active Contour and Graph-Based Segmentation Through Deep Learning (USRA, 2024) Design and develop a mobile application for locating and reporting lost and found items within the university campus (Undergraduate Thesis) Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2023/1 - 2023/4 Principal Supervisor	Ashok Adhikari (Completed) , Concordia University of Edmonton Thesis/Project Title: Improved multifactor authentication with machine learning: A novel approach to improve safety Present Position: Software Engineer
2023/1 - 2023/4 Principal Supervisor	Inderjot kaur (Completed) , Concordia University of Edmonton Thesis/Project Title: Artificial Intelligence in Healthcare: Developing a Fitness App for Personalized Nutrition and Exercise Tracking Present Position: Assistant Manager, Kurves Beauty Bar
2023/1 - 2023/4 Principal Supervisor	Tohidul Alam Anik (Completed) , Concordia University of Edmonton Thesis/Project Title: Mobile Apps for Fruit and Vegetable Detection to Improve Retail Store Billing System Automation Using Lightweight Deep Learning Models Present Position: System Consultant - Enoch Cree Nation, Long View Systems
2023/1 - 2023/4 Principal Supervisor	Ayo Okeowo (Completed) , Concordia University of Edmonton Thesis/Project Title: The Impact of Web Technologies on Daily Life: Developing a Weather Web-App Using JavaScript API Present Position: Data Analyst
2021/9 - 2022/6 Principal Supervisor	Gyan Ranjan (Completed) , Chandigarh University Thesis/Project Title: Sentiment Analysis from Text Data Present Position: SDE (AI/ML), AriveGuru Technology Solutions Pvt Ltd
2021/9 - 2022/4 Principal Supervisor	Rhythm Mahajan (Completed) , Concordia University of Edmonton Thesis/Project Title: Object Detection in Python Using OpenCV Present Position: Customer Experience Manager, The Home Depot Canada
2021/9 - 2022/4 Principal Supervisor	Manan Punjabi (Completed) , Concordia University of Edmonton Thesis/Project Title: Development of Key Logger Software and Machine Learning based Methods to Detect Unknown Key Loggers Present Position: IT Service Analyst, Shineatek Corp.
2021/9 - 2022/4 Principal Supervisor	Khoa Bui (Completed) , Concordia University of Edmonton Thesis/Project Title: A Reinforcement Learning based Algorithm for Developing Stacking games Present Position: Technical Support Specialist, Canadian Securities Exchange (CSE)
2021/6 - 2022/6 Principal Supervisor	Deepak Yadav (Completed) , Chandigarh University Thesis/Project Title: Deep Learning for Audio sentiment Analysis Present Position: Associate Lead Data Scientist, Bajaj Finserv
2021/6 - 2022/6 Principal Supervisor	Aman Bahuguna (Completed) , Chandigarh University Thesis/Project Title: Deep Learning for COVID Induced Pneumonia Detection from Chest X-ray Present Position: Software Engineering

2020/9 - 2021/8 Principal Supervisor	Shubham Malhotra (Completed) , Concordia University of Edmonton Thesis/Project Title: COVID-19 Chatbot: A natural language processing and artificial intelligence powered intelligent virtual assistant to create awareness during pandemic Present Position: Production Associate, Canada Bread Company, Limited
2020/9 - 2021/8 Principal Supervisor	Jainth Chaudhary (Completed) , Concordia University of Edmonton Thesis/Project Title: Safe AI: Privacy preserving machine learning algorithms for trust sensitive environments Present Position: IT Technical Support, Election Alberta
2020/9 - 2021/8 Principal Supervisor	Shubhampreet Singh Manshahia (Completed) , Concordia University of Edmonton Thesis/Project Title: Virtual Cook 2.0: A User Interactive Web Based Smart Recipe Search Engine in Flask Framework With jQuery and Ajax Present Position: Software Developer, Elev, Edmonton
2016/8 - 2017/7 Co-Supervisor	Gauravdeep (Completed) , National Institute of Technology, Patna, India Thesis/Project Title: Job scheduling problem for “N” jobs and “N”machines Using First Come, First Serve (FCFS) algorithm with backtracking Present Position: Engineer, Larsen & Toubro (L & T)
2016/8 - 2017/5 Co-Supervisor	Harsh Verma (Completed) , National Institute of Technology, Patna, India Thesis/Project Title: Job scheduling problem for “N” jobs and “N”machines Using First Come, First Serve (FCFS) algorithm with backtracking Present Position: Senior Analyst, Capgemini, Bangalore, India
2016/8 - 2017/4 Co-Supervisor	David Adrián Beltran Borquez (Completed) , Instituto Tecnológico de Los Mochis, Sinaloa, Mexico Thesis/Project Title: Application of artificial intelligence algorithms for welding sequence optimization Present Position: Engineer, Culiacán, Mexico
2016/5 - 2017/7 Co-Supervisor	Diana Laura Bañuelos Villegas (Completed) , Universidad Autónoma de Sinaloa, Culiacán, Mexico Thesis/Project Title: GMAW welding sequence optimization for an agricultural component using artificial intelligence algorithms Present Position: Senior Information Product Manager, Salud Digna, Culiacán, Mexico
2016/1 - 2017/1 Academic Advisor	Rodriguez Enrique (Completed) , Universidad Autónoma de Nuevo León Thesis/Project Title: Evolutionary Algorithms for Robot Inverse Kinematics Present Position: ADAS Algorithms Engineer, Continental
2016/1 - 2017/1 Academic Advisor	Cienfuegos Andres Saucedo (Completed) , Universidad Autónoma de Nuevo León Thesis/Project Title: Automating Peg-in-Hole Insertion Task Using Industrial Robot. Present Position: Hardware Engineer, John Deere
2015/8 - 2017/1 Co-Supervisor	Aranda Sinaí Miramontes (Completed) , Universidad tecnológica de Nayarit, Mexico Thesis/Project Title: Welding sequence optimization using genetic algorithms Present Position: Project Engineer, Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico
2012/8 - 2017/4 Co-Supervisor	Jonathan Ramiro Martinez Galin (Completed) , Instituto Tecnológico Superior de Poza Rica, Mexico Thesis/Project Title: Application of machine learning techniques for the “Peg-In-Hole” task Present Position: Senior Continuous Engineer Support, Continental, Queretaro, Mexico

Master's Thesis [n=42]

2025/9 - 2026/9 Principal Supervisor	Soyinka Oluwakayode Covenant (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2026/9 Thesis/Project Title: MIVA-KNIGHT: Multimodal Industrial Voice Assistant with Knowledge-Integrated Intelligence for Hybrid Tasks Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2025/9 - 2026/12 Principal Supervisor	Gbenro Ketiku (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2026/12 Thesis/Project Title: KNIGHT: Knowledge Graph Integration with Natural Language and Image Segmentation for Grounded Hybrid Tasks in Disease Diagnosis and Treatment Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2024/9 - 2025/12 Principal Supervisor	Daxit Himmatbhai Surani (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: SMART-MED: Scalable Multimodal Reinforcement-Driven AI for Medical Diagnostics in Alberta Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2024/9 - 2025/12 Principal Supervisor	Kashvi Shah (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: Vision Transformer Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2024/9 - 2025/12 Principal Supervisor	Varalakshmi Yasaswi Posina (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: Privacy Preserving Deep Learning Present Position: Master of Science Student in Information technology, Concordia University of Edmonton
2024/9 - 2025/12 Principal Supervisor	Dattatreya Viswanadham (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: Deep Learning Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2024/9 - 2025/12 Principal Supervisor	Manoj Kumar Yasangi (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: ECO-AI: Energy Consumption Optimization through Deep Learning Algorithms in Alberta Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton
2024/9 - 2024/12 Principal Supervisor	Shwetaben Siddhpura (Completed) , Concordia University of Edmonton Thesis/Project Title: Unlocking data insights with retrieval-augmented generation (RAG) Present Position: Software Engineer
2024/9 - 2025/12 Principal Supervisor	Bhavithra Suruliyandi Selvakumar (In Progress) , Concordia University of Edmonton Student Degree Expected Date: 2025/12 Thesis/Project Title: Space Debris Detection and Tracking Using Machine Learning and Computer Vision Present Position: Master of Science Student in Information Technology, Concordia University of Edmonton

2024/5 - 2024/8 Principal Supervisor	Sameera Nayyar Syeda (Completed) , Concordia University of Edmonton Thesis/Project Title: Lung Cancer Detection Using Deep Learning Models Present Position: Lcturer, Engineering College, Hyderabad
2024/5 - 2024/8 Principal Supervisor	Priyababen Vaibhav Panchal (Completed) , Concordia University of Edmonton Thesis/Project Title: Boosting LLM Performance with BLIP and OpenVINO for VQA and Image Captioning Present Position: Technical Consultant, Krish Technolabs
2024/5 - 2024/8 Principal Supervisor	Aftab Ahmed (Completed) , Concordia University of Edmonton Thesis/Project Title: Early Detection and Prediction of Forest Fires Using Deep Learning Techniques Present Position: Sales representative, The Shoe Company
2024/5 - 2024/8 Principal Supervisor	Satyam Gaurangbhai Oza (Completed) , Concordia University of Edmonton Thesis/Project Title: Multimodal Deep Learning for Skin Disease Classification Present Position: Software Engineer, Angel-Earth Corporation
2024/5 - 2024/8 Principal Supervisor	Abhinav Aggarwal (Completed) , Concordia University of Edmonton Thesis/Project Title: Security of Private Cloud Using Machine Learning and Cryptography Present Position: Technical Analyst, GoDaddy
2023/9 - 2024/12 Principal Supervisor	Dharaben Wagh (Completed) , Concordia University of Edmonton Thesis/Project Title: AgriSustain: Advancing Soil Health and Sustainable Agriculture Using Machine Learning Present Position: Sessional Instructor, McEwan University and Concordia University of Edmonton
2023/9 - 2024/12 Principal Supervisor	Pavan Sarvaiya (Completed) , Concordia University of Edmonton Thesis/Project Title: FrostGuard: Advancing Agriculture with AI and ML-based Frost Detection Present Position: Software Engineer, Angel-Earth Corporation
2023/2 - 2023/12 Principal Supervisor	Shahenoora Radhanpuri (Completed) , Concordia University of Edmonton Thesis/Project Title: AI Algorithms for Robotizing Manufacturing Task for Business Scale-Up and Productivity in Alberta Present Position: software Engineer
2022/9 - 2023/12 Principal Supervisor	Tatva Joshi (Completed) , Concordia University of Edmonton Thesis/Project Title: Deep Learning for Morphological Galaxy Classification and Exoplanet Detection: A Machine Learning Approach in Astrophysics Present Position: Data Analyst, Alberta Health Services
2022/9 - 2023/12 Principal Supervisor	Ramya Nekkanti (Completed) , Concordia University of Edmonton Thesis/Project Title: Machine Learning Based Models for Protein Structure Prediction in Drug Discovery Present Position: Data Engineer, Government of Alberta
2022/9 - 2023/12 Principal Supervisor	Md Khairul Anam (Completed) , Concordia University of Edmonton Thesis/Project Title: Enhancing Movie Analysis: Multimodal Genre Classification and Personalized Recommendation in a Distributed Map Reduce Framework Present Position: software Engineer
2022/9 - 2023/12 Principal Supervisor	Shashank Reddy Panyala (Completed) , Concordia University of Edmonton Thesis/Project Title: Multimodal Emotion Estimation Using Deep Learning Model Present Position: software Engineer
2022/9 - 2023/12 Principal Supervisor	Archita Bhattacharya (Completed) , Concordia University of Edmonton Thesis/Project Title: Addressing Ethical Consideration in Machine Learning Algorithms Present Position: Data Analyst, Toronto Dominion (TD) Bank

2022/9 - 2023/12 Principal Supervisor	Md Ashraful Islam (Completed) , Concordia University of Edmonton Thesis/Project Title: Unraveling the Radiogenomic Landscape of Glioblastoma Multiforme: A Multimodal Imaging and Transcriptomics Approach Present Position: IT Coordinator, Peerless College
2022/1 - 2022/12 Principal Supervisor	Wilson Kosasih (Completed) , Concordia University of Edmonton Thesis/Project Title: Privacy Preserving Covid-19 Contact tracing Using Machine Learning Present Position: software Engineer
2022/1 - 2022/12 Principal Supervisor	Raj Patel (Completed) , Concordia University of Edmonton Thesis/Project Title: Cell Image Detection and Recognition Using Deep Learning Present Position: software Engineer
2022/1 - 2022/12 Principal Supervisor	Nabil Beshay (Completed) , Concordia University of Edmonton Thesis/Project Title: Hate Speech Detection for Scarce Resource Languages Present Position: software Engineer
2021/9 - 2022/12 Principal Supervisor	Ali Boukrich (Completed) , Concordia University of Edmonton Thesis/Project Title: Speech recognition by training a Convolutional Neural Network (CNN) Present Position: Software Developer
2021/9 - 2022/12 Principal Supervisor	Raghavkumar Thakkar (Completed) , Concordia University of Edmonton Thesis/Project Title: Deep Active Contour Segmentation Present Position: Software Developer 2, Computronix
2021/9 - 2022/12 Principal Supervisor	Kathan Trivedi (Completed) , Concordia University of Edmonton Thesis/Project Title: Automated Weapon Detection and Recognition from Images Using Deep Learning Present Position: Software Engineer, Windowmaker Software Ltd
2021/9 - 2022/12 Principal Supervisor	Dhruvilkumar Doshi (Completed) , Concordia University of Edmonton Thesis/Project Title: Privacy Preserving Machine Learning Present Position: Software Developer, Computronix
2021/9 - 2022/12 Principal Supervisor	NirmalKumar Laxmanbhai patel (Completed) , Concordia University of Edmonton Thesis/Project Title: Music Recognition by fusing video and audio signal Present Position: Senior Software Engineer, Persistent systems
2020/9 - 2021/12 Principal Supervisor	Rene Avalloni de Moraes (Completed) , Concordia University of Edmonton Thesis/Project Title: Deep Learning based Models for Software Effort Estimation Using Story Points in Agile Environments Present Position: Cloud Engineer, PointClickCare
2020/9 - 2021/12 Principal Supervisor	Qozeem A. Adeshina (Completed) , Concordia University of Edmonton Thesis/Project Title: Machine Learning Based Approach for Detecting Distributed Denial of Service Attack Present Position: Senior Technical Services Engineer, ZeroTek, Canada
2020/9 - 2021/12 Principal Supervisor	Adeola Ayandeyi (Completed) , Concordia University of Edmonton Thesis/Project Title: Sentiment Analysis of Twitter Data to Analyze the Effect of Covid-19 Present Position: Data Systems Analyst, Rogers Communications
2020/9 - 2021/12 Principal Supervisor	Victor Cheruiyot (Completed) , Concordia University of Edmonton Thesis/Project Title: Machine Learning Driven Software Test Case Selection Present Position: Senior Operations Administrator, FedEx Ground
2020/9 - 2021/12 Principal Supervisor	Tanjimul Ahad Asif (Completed) , Concordia University of Edmonton Thesis/Project Title: Retail System Automation with Machine Learning Present Position: Software QA Engineer, IGT, Canada

2020/9 - 2021/12 Principal Supervisor	Lekhasree Narayanagari (Completed) , Concordia University of Edmonton Thesis/Project Title: Evaluation and Development of Artificial Intelligence tools to Assess COVID-19 Severe Acute Respiratory Syndrome from Chest Imaging Present Position: Sessional Instructor, Concordia University of Edmonton
2020/9 - 2022/12 Principal Supervisor	Ali Boukrich (Completed) , Concordia University of Edmonton Thesis/Project Title: A unified view of epidemiological and artificial intelligence based modelling to apply empirical evidences in rational public health policy measures Present Position: Graduate Student, Concordia University of Edmonton
2017/8 - 2021/6 Principal Supervisor	Adrián Alejandro Rodríguez Villarreal (Completed) , Centro de Investigación en Matemáticas (CIMAT), Monterrey, Mexico Thesis/Project Title: Sensor-driven prognostic models for critical mechanical components Present Position: Data Architect/Engineer, Neoris, Mexico
2016/8 - 2019/8 Co-Supervisor	Jesús Elizalde Balboa (Completed) , Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico Thesis/Project Title: Design and analysis of reconfigurable clamping device for industrial robot Present Position: PD Engineer Sr., Centro de Ingenieria Navistar Mexico
2016/8 - 2019/2 Co-Supervisor	Arnulfo González Cantú (Completed) , Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico Thesis/Project Title: Decision Trees and their Application in Metabolic Syndrome Present Position: Endocrinologist, Vanguard Clinic, Monterrey, Mexico
2016/8 - 2018/3 Co-Supervisor	Alonso Tovar Jose Alejandro (Completed) , Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico Thesis/Project Title: Design and implementation of a controller with force feedback for insertion task, in a industrial robot Present Position: Leader of Autodesk Specialization Services, CiiSA - Consultoria Integral de Informatica

Doctorate [n=2]

2016/1 - 2021/12 Co-Supervisor	Ortega David Aranda (Completed) , Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico Thesis/Project Title: Study and experimentation of artificial intelligence algorithms to learn bimanual tasks in a double arm robot Present Position: Technology Innovation Engineer - Electronics, Baker Hughes
2015/9 - 2021/12 Co-Supervisor	Jesus Romero (Completed) , Centro de Ingeniería y Desarrollo Industrial (CIDESI), Monterrey, Mexico Thesis/Project Title: Development of methodologies for reducing distortions in industrial welding processes through optimization with FEM analysis and artificial intelligence techniques Present Position: CEO, Manufai, Monterrey, Mexico

Post-doctorate [n=2]

2018/5 - 2019/5 Principal Supervisor	Senapati Apurbalal (Completed) , Centro de Investigación en Matemáticas (CIMAT) Thesis/Project Title: Potential Association between image based phenotypes and genomic biomarkers for making therapeutic and prognostic decisions of cancer. Present Position: Assistant Professor, Central Institute of Technology, Kokrajhar, Assam, India
---	--

2016/9 - 2019/1
Co-Supervisor
Bhattacharya Ritwik (Completed) , Centro de Investigación en Matemáticas (CIMAT)
Thesis/Project Title: Optimization problems in the domain of reliability.
Present Position: Assistant Professor, The University of Texas at El Paso

Committee Memberships

2021/9	Committee Member, Program to Assist Grant Endeavours (PAGE), Concordia University of Edmonton
2019/7	Committee Member, Science Faculty Council (SFC), Concordia University of Edmonton
2022/3 - 2024/12	Committee Member, Faculty Hiring Committee for Math, Information Technology, Physics, Chemistry, Earth Sciences, Information Systems Security Management, and Information Systems Assurance Management, Concordia University of Edmonton
2022/11 - 2024/6	Committee Member, Research and Development Committee, Concordia University of Edmonton
2021/7 - 2024/6	Chair, Mathematical and Physical Sciences, Concordia University of Edmonton
2021/7 - 2024/6	Chair, Master of Science in Information Technology, Concordia University of Edmonton
2021/7 - 2024/6	Chair, Bachelor of Science in Information Technology, Concordia University of Edmonton
2021/4 - 2024/6	Committee Member, IT Dual Credit Program Launch Committee, Concordia University of Edmonton
2021/1 - 2024/6	Co-chair, Interdisciplinary Research Cluster on Machine Learning & Artificial Intelligence (IRCMLAI), Concordia University of Edmonton
2021/8 - 2023/9	Committee Member, Cyclical Program Review (CPR) Committee for Bachelor of Science in Chemistry, Mathematics, and Information Technology, as well as Master of Science in Information Technology, Concordia University of Edmonton
2020/7 - 2022/6	Committee Member, General Faculties Council (GFC), Concordia University of Edmonton
2019/7 - 2020/8	Committee Member, MScIT Program Development Committee, Concordia University of Edmonton
2020/2 - 2020/4	Committee Member, Working Group on Recruitment for increasing diversity, domestic students, and industry collaboration for MISSM/MISAM Program, Concordia University of Edmonton
